

## FAST TRACK TEACHER PREP PROGRAM

### Blended Instruction

#### Qualified Blended Educator Certification

**Session 1:** June 3-July 3, 2020

**Session 2:** July 8- August 8, 2020

iLearn Collaborative has launched a new pathway program for Qualified Blended Learning Certification. In order for teachers to be as best prepared to start blended learning by fall 2020, we created an accelerated path that prepares and equips teachers to instruct in blended environments. Our new program follows a critical path that stems from four of our highest demand PD courses that provide the basics and best instructional practices for blended learning (also supports full online learning if necessary). The program is designed to be one month with each block being one week. Teachers will also be supplied with full student digital courses to then practice use for the remainder of the summer in order to be best prepared by the start of school.

The program is comprised of four micro-credentials based on the following competencies:

1. **Implementing Blended Instruction Models:** Flex, A La Carte, Enriched Virtual, Flipped, Station Rotation (teacher choose models based on their interest)
2. **Integrating Technology for Student Engagement & Self-Directed Learning:** Instructional Best Practices
3. **Creating Digital Content**
4. **Incorporating Open Educational Resources (OER)** into existing curriculum focused on digital content to enhance instruction – optional  
*\*All participants who participate in the OER session will receive full-length digital courses of their choice (see attached course catalog)*

Content is delivered and facilitated via four live webinars (all will be recorded), on-demand videos and podcasts, and supplemental reading material supporting just-in-time learning. The program is comprised of four micro-credentials, each meeting ADDIE requirements of *Analyze, Design and Development, Implement, and Evaluate*.

Training resources and tools include 24/7 access all training resources and live facilitator support.

- Earn 20-32 PD clock hours along with micro-credentials
- 5-8 PD clock hours/training block
- 2 college graduate credits from University of Northern Colorado (\$65/credit)
- Access to full-length digital courses of their choosing
- \$25/block = \$75 - \$100/teacher for entire program

To participate or if you have any questions, please contact Judy Perez (303)748-3221
