

Educators will learn the key components about giftedness and how best to teach gifted learners to include:

1. Characteristics of giftedness: Understanding the traits and behaviors commonly associated with giftedness, including advanced cognitive abilities, intense interests, and exceptional creativity.
2. Learning Styles: Understanding how gifted students learn and their unique learning styles, which may be different from other students.
3. Creativity and Innovation: Encouraging and fostering creative thinking, problem-solving, and innovation in gifted students.
4. Emotional and Social Needs: Addressing the emotional and social needs of gifted students, including the challenges of perfectionism, underachievement, and isolation.
5. Differentiated Instruction: Providing differentiated instruction that is tailored to the needs and abilities of gifted students, including acceleration, enrichment, and individualized instruction.
6. Advocacy: Educating students, teachers, and families on the importance of advocating for the needs of gifted students and the benefits of their development.
